

BLUE FORCE GEAR®

MOLLEMINUS

Fewer seams, fewer failure points

Slots and voids are fully MOLLE compatible

Multicam ULTRAcomp

Introducing MOLLEminus™ – the world's lightest, thinnest MOLLE compatible load carriage. Made of a single piece of ULTRAcomp™ laminate that stays dry and light, is inherently flame resistant, antimicrobial, and outperforms 1000d CORDURA® – and only half the thickness of a dime.

MOLLEminus the weight, the bulk, the nonsense.

▶ **RACKminus™**

MOLLE 12 x 3 255g
(shown is MM-CHESTRIG-1-MC)

▶ **SPLITminus™**

MOLLE 6 x 3 (x2) 250g
(shown is MM-CHESTRIG-2-MC)

▶ **BELTminus™**

MOLLE 22 x 2 245g (size large)
(shown is MM-HHWBELT-1-LG-MC)

HELIUM WHISPER

Helium Whisper™ has revolutionized the modular load carriage system - creating a new standard in attachment systems. Helium Whisper is the thinnest, strongest, lightest MOLLE attachment system in existence.

The heart of the patent pending Helium Whisper technology is the single piece modular backer made of a high performance laminate called ULTRAcamp™. Lighter and simpler MOLLE backers eliminate the weight penalty of modularity while offering other benefits that exceed current issue load carriage.

Attachment straps are integral to pouch backer for increased strength

Single sided loop attachment aids in correct installation

Flexible attachment straps fit where other MOLLE pouches won't

Where applicable, ULTRAcamp rolled over edges for greater durability

For the full line of utility, magazine, and medical pouches with the Helium Whisper attachment system visit BlueForceGear.com/pouches

ON TARGET

▶ **Zippered Utility Pouch**

Available in 4 sizes
(shown is HW-M-UPZ-H-M-MC)

▶ **Trauma Kit NOW!™**

Medium (Army IFAK)
Large (USMC IFAK)
(shown is HW-M-TKN-MD-CB)

▶ **Admin Pouch**

With Internal Organization
(shown is HW-M-ADMIN-MC)

▶ **Smoke Grenade Pouch**

Also in Frag Grenade size
(shown is HW-M-SMOKE-1-MC)

▶ **Single Pistol Pouch**

Also fits multitools, lights
(shown is HW-M-PISTOL-1-CB)

▶ **Ten-Speed™ Magazine Pouches**

Available in Pistol, MP7, M4, SR25, 417 sizes
(shown is HW-TSP-M4-1-CB)

Stocking colors: Black, Coyote Brown, Multicam®, Urban Wolf
Special order colors available based on order size

VICKERS COMBAT APPLICATIONS SLING

The Vickers Combat Applications Sling™ has become the world's standard in combat weapon slings. With over 100,000 in use across all branches of service, you can count on the Vickers Family of Weapon Slings. With a pull on the contrasting Adjuster pull tab, the VCAS™ allows for instantaneous length adjustment allowing the sling to quickly convert from carrying to fighting without removing the weapon or snagging the sling webbing. Patent pending.

Larry Vickers is a retired carrier special operations soldier with 20 plus years of dedicated service. A long time 1st SFOD Delta member, LAV is influential to the shooting community and was pivotal in the development of the VCAS Family of Weapon Slings.

▶ Vickers Combat Applications Sling

1.25" proprietary webbing, fully adjustable (shown is VCAS-125-OM-MC)

▶ Padded Vickers Combat Applications Sling

2" inline padding for heavier weapons (shown is VCAS-200-OA-FG)

Acetal Adjuster -
quieter, smoother

Machined Aluminum
Adjuster – stronger, all
metal hardware

Signature Contrasting
Pull Tab

Solution Dyed
Proprietary Webbing
- will not bleed, resists
hardening and fading

▶ **Vickers SAW Sling™**
3" inline padding, Nomex front
(shown is VCAS-SAW-CB)

▶ **Vickers M240 Sling™**
Adjustable padding, Nomex front
(shown is VCAS-M240-MC)

Stocking colors : Black, Coyote Brown

Special order colors : ACU, A-TACS FG, A-TACS AU, Foliage Green, Desert Digital, Desert Sand, Multicam, OD Green

SLING HARDWARE

Just as important as the sling is the sling hardware that connects it to the weapon. We put the same effort, innovation and quality into hardware as everything else we do.

► Universal Wire Loop™

The quieter, more secure attachment for AK, SCAR, HK, SIG eyelets. Can also be girth hitched through stocks, front sight bases, or anywhere else with a .25" hole. Available in two sizes.
(shown is UWL-625-BK)

► RED™ Swivel

The world's first true emergency release swivel. Designed for vehicle/maritime use for quick egress. Fits standard push button sockets. Patent pending.
(shown is P-PBER-125)

► Universal Wire Loop™ - Push Button Socket

Increased versatility over the UWL. Able to create a 2-to-1 Point sling with a VCAS and RED Swivel. Patent pending.
(shown is UWL-PB-255-CB)

Scan here to see videos of the RED Swivel in use

LIGHTWEIGHT LOAD CARRIAGE

► SOC-C™ Belt Kit

One size fits most, fully adjustable
Designed to hold first line gear
(shown is COMBO-SOC-C-01-CB)

► Lightweight Modular Armor Carrier™

Lightest full featured plate carrier. Built around the SAPI / ESAPI plates. Removable side plate pockets. Optional Ten-Speed cummberbund and quick release straps. Plate Pillow protects your face from hard plate edge.
(shown is LMAC-MC)

► Ten-Speed™ Chest Rig

Available in M4, SR-25, MP7 versions
MOLLE field on sides for additional modularity
Internal map / document pouch.
(shown is TSP-CHESTRIG-SR25-BK)

DAPPERS

Dappers™ are the ultimate discreet carry - from every day travels to ultra low-vis work - keeping essential gear organized and in place. Available in several sizes and configurations, the hook backed Dappers can be quickly installed and removed from Dapper Inserts or packs with loop fields inside depending on the load out and mission set.

Well Suited for but Not Limited to:

- Medical supplies
- Office needs
- Spare magazines and ammunition
- Tools and specialized equipment

*Additional sizes and configurations available.
